# Soil Build

DIVERSE MULCH + INOCULANT BALL

**OPTIMUM LIVING SOIL** uses 70% less water, sequesters 75% carbon dioxide, improves pest defence, uses 50% less fertilizer and plants grow twice as fast

**BUILDS VIBRANT, LIVING SOIL**

## INGREDIENTS

**Carbon:** Untreated water retentive *Elegia* (thatch), enriched and compacted biochar.

**Naturally captured nutrients:** *Medico sativa* (lucerne), *Moringa oleifera* extract, mixed herbs.

**Trace Elements:** Reduced salt pan sea water for electrolytes.

**Life:** Living compost concentrates, enhancing crystals and physical amplifying metals.

## DIRECTIONS FOR USE

Simply spread 1 x 50 dm bag of **Soil Build** per m<sup>2</sup> at 50mm thickness. Crumble and spread the **Soil Charge** inoculant ball included in the bag. Water to activate and settle.

## STORAGE

**Best applied fresh (30 days from date of delivery).**

Store in a cool, dry, well ventilated place out of direct sunlight. Keep away from electrical boxes.
